Transition to Spring at Domaine Carneros

Sparkling wine landmark [Domaine Carneros](#) recently opened a new conservatory-style addition to its chateau that expands the hilltop view of rolling hills and shields guests during cool days. Seamlessly integrated with the 18th century-style chateau, the glass-enclosed *Jardin d'Hiver* was inspired by garden conservatories designed by Gustave Eiffel at the Place de la Concorde, complete with its own fountain.

Inside the brightly-lit space, Domaine Carneros offers a new 5-course sparkling wine and bites pairings showing the versatility of their dry, rose and off-dry sparkling wines with savory food. The current menu is Asian-inspired and will change with the seasons. The pairing (\$85 pp) is offered once a day at 11 a.m. Monday-Friday with 48-hour advance reservation. *1240 Duhig Road, Napa*
