NAPA: **Carneros Expanded**

Domaine Carneros by Taittinger has announced the debut of its new Jardin d’Hiver, a conservatory-style addition to the terrace of the elegant chateau.

The glassed-in addition, featuring skylights and indoor-outdoor fireplaces, offers guests a warm space to enjoy wines while being shielded by the winds that define the sparkling wine region’s cool climate.

The winery also expanded its tasting experiences with “The Art of Sparkling Wine Pairing: Asian Bites with Bubbles.” The five-course food and wine pairing is designed to showcase the versatility of sparkling wine.
