## Domaine Carneros' Retiring CEO Eileen Crane Leaves a Legacy of Growth and Sustainability

By **Press Release** - April 21, 2020

**Carneros, CA – April 21, 2020** – CEO of Domaine Carneros and sparkling winemaker Eileen Crane is retiring this June after 33 years spent crafting wine with attention to detail in the cellar and vineyards with a dedication to sustainability. Her introduction of innovations such as the winery's new electrical micro-grid, renewable energy systems, and packaging reuse programs garnered the winery and its team a host of accolades, most notably in 2019 when Domaine Carneros was honored with the California Green Medal Business Award. Crane will continue as lead sparkling winemaker through the 2020 harvest and cuvee blending, and leaves the company well-positioned to prosper in the coming years.

Eileen Crane

**"To tend to the vine is to do the right thing. I have a responsibility to my winery, my employees and the planet,"** Crane says, summarizing her dedication and passion for winemaking. **"It was an honor and a privilege to work with the Taittinger family for these past 33 years. I know Domaine Carneros will continue to be a leader in winemaking and regenerative practices."**
