REMI COHEN – CEO OF DOMAINE CARNEROS

TASTEMAKERS

BY ALLISON LEVINE | AUGUST 3, 2021

Remi joined Domaine Carneros on August 3, 2020, which was also the first day of the sparkling wine harvest. Two weeks later, on the same night they had finished picking the grapes for sparkling wine, the fires started. They managed to complete the Pinot Noir harvest with little impact. But, in hindsight, it was an exceptionally challenging time to take the reigns of CEO of Domaine Carneros.

Remi continues to expand Domaine Carneros' sustainability practices which extend beyond the vineyard and winery and focus on the employees and community. Domaine Carneros employees actively make sustainable choices in the workplace, day in and day out. Employees have reduced the use of single-use plastic by replacing with reusable water bottles and compostable plates, cups, and silverware in the break room.
